## EPD-Norway and Institute of Global Sustainability Certification - "IGSC" herby announce partnership and cooperation.

EPD-Norway and IGSC have entered a formal agreement for partnership and cooperation. The main goal and objective for the agreement is to together offer complete solutions for reliable and verified Environmental Documentation, fully in accordance with international standards, in a cost and time effective manner in South Korean and other relevant countries.

The partnership will in the first phase emphasize on:

- ✓ Develop, verify, and publish EPDs - Environmental Product Declarations.
- ✓ Publish Product Carbon Footprint verification statements.
- ✓ Educate qualified EPD developers.
- ✓ Educate and approve 3rd party verifiers.
- ✓ Provide automated EPD generating tools.

We strongly believe that this partnership and cooperation will be very beneficial for both parties, but especially for all the companies requiring trustworthy and verified Environmental Documentation as part of their sustainability strategy and to gain market access and market shares.

---
